SKILLS

Technical Skills: AWS, Git, CSS3, HTML5, RESTful APIs, MongoDB, Express.js, Node.js, Redux, React, JavaScript
Soft Skills: Attention to Detail, Teamwork, Problem Solving, Effective Communication

EXPERIENCE

Nsquare Business Consulting, Pune | *Node.js backend developer*

Jan 2024 - Jun 2025
- Engineered scalable Node.js backend for real-time WhatsApp chatbot communication
- Developed WhatsApp chatbot using webhooks to automate customer interactions
- Optimized bulk API call accuracy by 40% and enhanced socket event delivery reliability by 60%
- Reduced Redis cache load by 30% through efficient data handling and caching strategies

Upthink Experts, Pune | *E-Tutor*

Jul 2019 - Sep 2021
- Guided U.S.-based students in solving complex chemistry problems via digital platforms

PROJECTS

Purrfect-Match | *Node.js, Express.js, MongoDB, React, Redux, AWS, Nginx, Cloudflare*

- 🚀 Deployed Link : https://aditis.in/
- Github Repo : https://github.com/AditiKulkarni1697/Purrfect-Match
- Built a single-page pet social platform with profile browsing and friend request management using React & Redux.
- Implemented friend suggestion features based on user interests, enhancing user engagement and interaction.
- Enabled profile completion and editing after registration to personalize user experience.

TaskMaster | *Node.js, Express.js, MongoDB*

- Github Repo : https://github.com/AditiKulkarni1697/TaskMaster
- Developed backend APIs for a task-tracking platform with secure role-based access control, role assignment, and filtering/search features.
- Built features for team creation, task assignment, status tracking, access control, and collaboration via comments and file attachments.
